WEB DEVELOPPEMENT

- # HOW DOES THE WEB WORK?

The web operates by enabling users to access web pages through browsers using URLs, hyperlinks, and the HTTP protocol, all while relying on the Internet network for data transmission.

WHAT DO YOU NEED TO BE A WEB DEVELOPER ?

Mainly, it requires the mastery of these three languages :

HTML: defining the content to display
CSS : telling a browser how to display this content
JAVASCRIPT : making content interactive

- ## **Why did you choose to learn web development?**

The profession of developer is one of the most trendy professions in recent years, it is a field benefiting from one of the lowest unemployment rates.

here are the reasons to become a developer:
